Primary Examiner, Art Unit 2823

The following is an examiner's statement of reasons for allowance: It is not clear that the device of Kinzer et al remains operable after a total radiation dose and a single event causing a threshold voltage shift up to -5 volts. As best understood this is the result referred to in the last three lines of claim 1 (see instant page 1, lines 21-22 and instant page 17, lines 11-27) possibly because of the processing by Kinzer et al of the gate layer at 950°C as opposed to limiting the post processing to 800°C for example as in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Fourson whose telephone number is (571) 272-1860. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith, can be reached on (571) 272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
